SOCIETY OF CORONARY SURGEONS INDIA

ABOUT SCS

This society has been formed with a view to associate persons interested in and carrying on research regarding all aspects of coronary artery disease and publish the extensive work that that is being done in India in the field of Coronary Artery Surgery.

The Membership to the SCS enables you to

- Participate in the STS Database for no extra fee. Members can upload the patient data into the adult surgery database and get regular analysis at the time of harvesting. This is an opportunity that you must not miss and hence it is highly recommended that you upload your data to the STS database.
- A subsidised Registration for the Annual SCS Conference
- Receive a Special Discounted Registration fees for the Annual International Coronary Congress due to a tie up of the SCS with the International Society for Coronary Artery Surgery.
- Participate in research activities of the Society including multicentre trials.

Participation in the STS Database is not mandatory but highly desirable, because if more surgeons participate in the database, it will truly show the world the large numbers of coronary surgeries that are being performed in India.
